CAREER OBJECTIVE

Final-year B.Tech Information Technology student with hands-on experience in full-stack web development using the MERN stack, REST API integration, and database management. Strong interest in data structures, algorithms, and problem-solving, with experience developing end-to-end applications and participating in technical competitions. Eager to contribute to a product engineering team by building reliable, maintainable software and continuously strengthening programming and software engineering skills.

EDUCATION

KGISL Institute of Technology, Coimbatore Year of Graduation: 2027
B.Tech. — Information Technology | CGPA: 8.61 / 10

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python, Java
- **Data Structures & Algorithms:** Arrays, Strings, Searching, Sorting, Two Pointers, Sliding Window, Prefix Sum
- **Frontend:** HTML5, CSS3, JavaScript, React.js
- **Backend:** Node.js, Express.js, REST API Development
- **Databases:** SQL, MySQL, MongoDB
- **Core Computer Science:** Object-Oriented Programming (OOP), DBMS, Computer Networks
- **Tools:** Git, GitHub, Postman, VS Code

SOFT SKILLS

Problem Solving • Analytical Thinking • Teamwork & Collaboration • Communication Skills • Time Management • Adaptability & Willingness to Learn

INTERNSHIP EXPERIENCE

Web Development Intern — CodSoft 25 May 2026 – 25 Jun 2026
- Developed web application features using HTML, CSS, JavaScript, and React.js.
- Tested application functionality and addressed issues encountered during development.
- Collaborated with a remote team to complete assigned tasks and deliver features within project deadlines.

Web Development Intern — Skill Craft Technology 1 Mar 2025 – 31 Mar 2025
- Built reusable React.js components for a live web application, keeping styling and behavior consistent across pages.
- Integrated frontend screens with REST APIs and worked with the team to test and fix issues before each release.

Web Development Intern — Rinex Technologies 6 Jan 2024 – 12 Mar 2024
- Converted design mockups into working HTML/CSS/JavaScript pages, then rebuilt parts of the UI in React.js.
- Fixed cross-browser and layout issues to make pages behave consistently across screen sizes.

PROJECTS

AI Powered Herbal Care *React.js, Node.js, Express.js, MongoDB, AI Chatbot*
- Developed a full-stack herbal e-commerce application featuring product listings, shopping cart functionality, and user authentication interfaces.
- Integrated frontend components with backend REST APIs and MongoDB to support application data management.
- Integrated an AI chatbot to respond to user queries and improve the product discovery experience.

Learning Management System *MongoDB, Express.js, React.js, Node.js*
- Developed a full-stack Learning Management System supporting course delivery, student enrollment, and progress tracking across multiple user roles.
- Implemented REST APIs with authentication and authorization to support role-based application access.
- Integrated the React frontend with the Node.js and Express.js backend and MongoDB database.

Gender and Age Detection System *Python, OpenCV, Deep Learning*
- Developed a computer vision application in Python using OpenCV to detect faces and predict gender and age group from images in real time.
- Applied pre-trained deep learning models for face detection and classification, and processed live image input to generate accurate predictions.

ACHIEVEMENTS

- Won Special Winner award at PyExpo Hackathon, a team-based technical project competition.
- Presented a research paper, “Enhancing Online Shopping: The Technology and Future of Amazon’s Recommendation System,” at Astranova 2K25, a National Level Technical Symposium held at CIT College.

CERTIFICATIONS

- Hands On React JS: From Beginner to Expert — Udemy
- Web Development with ChatGPT — Simplilearn
- IBM Certified: Introduction to HTML, CSS & JavaScript
- Linux OS System Course — The Linux Foundation
